Our Vision

To develop children into enlightened citizens of tomorrow "Reaching New Heights" Our Mission oxford public school emphasize on quality education in a facilitative challenging and positive environment, encouraging sharing and caring so as to make dynamic, inquisitive and rational individuals who display high self esteem and a sense of morality.

Our School Website

Oxford public School's website, namely www.oxfordps.in is an interactive website which is always updated, and provides powerful medium for communication & interaction.

Objectives for the academic year 2020-21

To deliver curriculum efficiently with the help of online platform

- The objective relates to the mission of providing quality education in a facilitative, challenging and positive environment. This objective is an ongoing process as due to uncertain situations like pandemics the students were to be tutored individually at their homes. So to deliver curriculum effectively the teachers were trained.

The objective is to foster curiosity, creativity, and imagination in young minds and inculcate skills such as design mindset, computational thinking, adaptive learning, physical computing etc. Young children will get a chance to work with tools and equipment to understand what, how and why aspects of STEM (Science, Technology, Engineering, and Math)

To equip the stakeholders with online teaching virtual platform

- The objective relates to mission of providing quality education in a facilitative, challenging and positive environment. During pandemics the responsibility of the school to take care of the holistic development of the

children with the help of parents increased. To meet this challenge the school trained all the stakeholders and equipped them with this platform to use it effectively to meet the teaching learning process, assessment process and timely communication for improvements

To develop logical and analytical skills as well as 21st century skills

- The objective relates to the mission of providing quality education in a facilitative, challenging and positive environment. It is related to interdisciplinary approach.

ONLINE EDUCATION

The academic year 2020 – 2021, faced a very challenging time which brought the world to a complete halt with the Corona pandemic and with lockdown all over the Nation. This isolation was unique and unprecedented event in our lives. It had become imperative to stay at home and we had to decide as to how meaningfully we could utilize our time. In these hard times, we had to maintain positivity and high morale. We all had faced a completely unprecedented crisis due to the spread of corona virus all around the world. However, this time had taught us how to build foundations of resilience to face difficult events in future. Conducting exams was the biggest challenge. Students were sent question papers and had to solve them under the supervision of their parents. Std. I to Std. VIII had to be promoted to next grades. We believed that our students would have solved the exam papers at home honestly. This was "Self Evaluation".

Readiness for online session

The school conducted a survey to understand the availability of resources to assess the readiness for online sessions. The school created awareness amongst the parents and students through a video students who were not able to attend the online session due to network issue or some medical reasons were supported through offline medium.

. Its indeed a very proud moment for all the stake holders as this brings positivity in such pandemic situation and it acknowledges the fact that City Pride School was on the right path in online teaching.
